A DAY OF RICKONING May Await Those who Took Part in the Indiana Lynching.

OSGOOD, Ind., Sept. 16.-It is said here that there will be an awful reckoning for the slaughter of the five men in the Versailles jail. All the victims have many relatives and friends, who have determined that somebody must suffer determined that somebody must suffer for the wholesale lynching. Everybody here feels that more blood will be shed, There is a feeling that the mob acted hastily as to Levi and Jenkins. The only testimony against them was Hostetter's statement that they were involved in the Wooley burglary.

The inquest was renewed to-day, Many witnesses were called, but not one could dentify anyone connected with the mob. Circuit Judge New says that every possible effort will be made by the authorities to punish the mob participants.

VERSAILLES, Ind., Sept. 16.—The people in Versaliles are stifl dazed more than ever by the horror of the bloody work of Tuesday night. No other topic is discussed except speculation as to the probability of action being taken to arrest and punish the participants in the mob. All agree that the plan was deliberately laid. It is said by witnesses that from the time the two signal rockets were sent up on the outsidres of the town until the work of the mob was completed and the men were going home was not more than fifteen minutes. It is also said that the active participants in the lynching did not exceed fifteen or twenty, though the men who were present as guards and helpers numbered about 250. It is generally conceded the organizers were Oegood men, though so far no one can be found who recognized any of them.

One's physical feelings, like the faithful setter, search and point out plainly the fact of disease or health.

If a man is not feeling well and vigorous —if he is losing flesh and vitality, if he is listless, nervous, sleepless, he certainly is not well. The down hill road from health to sickness is smooth and declines rapidly. At the first intination of disease, the wise man takes a pure, simple vegetable tonic. It puts his digrestion into good active order and that puts the rest of his body in order. The medicine that will do this is a medicine that is good to take in any trouble of the blood, the digrestion, or the respiration, no matter how serious it may have become.

The medicine to take is Dr. Pierce's Golden Medical Discovery. It is a remarkable remedy. It cures diseases in a perfectly natural way, without the use of strong drugs. It cures by helping Nature. It has a peculiar tonic effect on the lining membranes of the stomach and bowels. By putting these membranes into healthy condition, stimulating the secretion of the various digestive juices and furnishing to the blood the proper purifying properties, it reaches out over the whole body and drives disease-germs before it into the usual exerctory channels. It builds up firm muscular flesh, makes the skin and the eyes bright.

Dr. Pierce's Golden Medical Discovery has been found wonderfully effectious in the treatment of skin diseases—exema, tetter, erystpelas, salt-rheum—from common pimples or blotches to the worst case of scrotula.

Charles J. LaRoche, a music dealer of this city, who has been closing out his store for some months past and who recently made an engagement with a Wheeling firm, was arrested here and taken to Cincinnati on a charge of embezsiement preferred by the John Church company of that city. The amount in the charge of embezsiement is \$135. Mr. LaRoche claims that the company owes him more than that sum and denies that he is short. He gave bond in the sum of \$500 and was not locked up. An agent of the John Church company was here for a month or more looking up matters while the music store here was being closed out of the larger instruments. At that time it was hinted the amount was large and much uneasiness prevalled among purchasers of instruments who had fully paid for their planes, but found they were not so credited upon the books of the company. These matters, so far as known, have been fixed up, and the sum named in the charge is only to bring the whole matter to an issue and have a settlement in the courts. The arrest here was made very quietly and was kept so until he was arraigned in Cincinnati. It did not come as a surprise, as there had been some talk for months, but it was supposed the shortages had ben straightened up, since, Mr. LaRoche made no effort to avoid the responsibility. What the outcome will be remains to be seen.
